One of, if not the most mercilessly horrifying things in modern life, is a typographical error made by the new typosetting machines. The Item about Smalldon in the last Fort Douglas notes referring to his well known sprinting qualities, made him wear "rings" instead of wings on his feet. Oh, if there was half a chance to "fix" those machines!—um, but they cost \$2,000 apiece. A hard, cruel, Linotype age, this.

DRIVEN TO SEA. SAN FRANCISCO, Jan. 21.-Shipping and insurance men fear that some mishap has befallen the British ship mishap has befallen the British ship Cadzow Forest. She arrived off the Columbia river January 4, and took Pilot Grassman aboard, but before she could get in was driven to sea. Since then seventeen days have elapsed and she has not been seen or heard of since. In that time there has been some very bad weather off the coast, and it is believed she has met with some accident. She was on her way to Portland to lead wheat.

BUILDS WARSHIPS.

GEORGE AMES, OF SAN FRANCISCO, for me. I had the grip and i e fill effects IN TOWN.

Talks About the Oregon, Which is Nearly Completed-The Monterey and San Francisco-How He Sat on a Britisher.

Hon. George Ames, one of the gentlemen heavily interested in the Union Iron works, of San Francisco, is in the Mr. Ames is a very pleasant gentleman and gave an attache of this The house was too much occupied paper some interesting information rewith the senatorial election to transgarding the construction of men-of-war garding the construction of men-of-war

ships yesterday afternoon. The Union Iron works constructed the coast defense vessel, Monterey, the San Francisco, and is now completing the battle ship, Oregon. This last named vessel has been affoat for some time and is nearly finished. If the government was to furnish the Harveyized armor with which she will be coated, it would be less than sixty days ere she could take the water for work of the most difficult character. As it is, it will be about the first of May ere she is ready for commission.

Mr. Ames is very sanguine as to the future of this ship. He says she is of the first of her kind and will be competent to cope with anything affoat when finished. She is going to be fast, too. A trip around the bay demonstrates that. Indeed the firm anticipates it will realize something in the neighbor-The Union Iron works constructed

when the joint session will convens.

Poor Indeed!

There are degrees and kinds of poverty, just as there are differences of opinion among those who compute and measure poverty and riches by different standards. Some

with the Oregon, which he deciares a wonder.

As to building battleships on the Pacific coast he is confident the west can accomplish as great results as the east in this line. He points with pride to the Monterey and the San Francisco, particularly the former. When she was completed and a trial trip made around the bay, her nose caught a wave and the jackstaff split the water to a considerable depth. Whereupon the wise newspaper men of the city at once held a council of war and decided she was unseaworthy and would go down with all on board. Officers and men were nervous at first, but the contractors told them all was right; to go ahead. "fills the bill." and this is Hostetter's Stomach Bittera. By restoring digestion, giving a healthful impulse to the action of the bowels and liver and tranquillizing the nerves, it fulfills the condition necessary to a resumption of strength by the system. It also overcomes malaria and rheumatism.
